Contents Volume 2 1991

Copepods in ice-covered seas—Distribution, adaptations to seasonally limited food, metabolism, growth patterns and life cycle strategies in polar seas
R.J. Conover (Dartmouth, N.S., Canada) and M. Huntley (La Jolla, CA, U.S.A) 1
Ice algal photosynthesis at Resolute and Saqvaqjuac in the Canadian Arctic
M.A. Bergmann, H.E. Welch, J.E. Butler-Walker and T.D. Siferd (Winnipeg, Man., Canada) 43
Sea ice macrofauna in the Antarctic and the Arctic
B. Gulliksen and O.J. Lønne (Tromsø, Norway) 53
Atmospheric boundary layer measurements over sea ice in the Sea of Okhotsk
K. Shirasawa and M. Aota (Mombetsu, Japan) 63
The transport of CO_2 into Arctic and Antarctic Seas: Similarities and differences in the driving processes
L.G. Anderson (Göteborg, Sweden) and E.P. Jones (Dartmouth, N.S., Canada) 81
Productivity of sea ice algae: In situ vs. incubator methods
R.E.H. Smith (Waterloo, Ont., Canada) and A.W. Herman (Dartmouth, N.S., Canada) 97
The structure of upper level pelagic food webs in the Antarctic: Effect of phytoplankton distribution
D.G.A. Ainley, W.R. Fraser (Stinson Beach, CA, U.S.A.), W.O. Smith Jr. (Knoxville, TN, U.S.A.), T.L. Hopkins and J.J. Torres (St. Petersburg, FL, U.S.A.) 111
Plankton assemblages in the ice edge zone of the Weddell Sea during the austral winter
D.L. Garrison (Santa Cruz, CA, U.S.A.), K.R. Buck (Pacific Grove, CA, U.S.A.) and M.M. Gowing (Santa Cruz, CA, U.S.A.) 123
Austral winter distributions of large tintinnid and large sarcodinid protozooplankton in the ice-edge zone of the Weddell/Scotia Seas
M.M. Gowing and D.L. Garrison (Santa Cruz, CA, U.S.A.) 131
Under-ice physical oceanographic processes
S.J. Prinsenberg (Dartmouth, N.S., Canada) and R.G. Ingram (Montreal, Que., Canada) 143
Characteristics of the turbulent oceanic boundary layer under sea ice. Part 1: A review of the ice–ocean boundary layer
K. Shirasawa (Mombetsu, Japan) and R.G. Ingram (Montreal, Que., Canada) 153
Characteristics of the turbulent oceanic boundary layer under sea ice. Part 2: Measurements in southeast Hudson Bay
K. Shirasawa (Mombetsu, Japan) and R.G. Ingram (Montreal, Que., Canada) 161
A review of the surface climate of the Southern Hemisphere and some comparisons with the Northern Hemisphere
H. van Loon (Boulder, CO, U.S.A.) 171
Mesoscale eddies and chimneys in the marginal ice zone
S. Sandven, O.M. Johannesen and J.A. Johannesen (Solheimsvik, Norway) 195
Bio-physical oceanographic interactions at the edge of the Arctic ice pack
H.J. Niebauer (Fairbanks, AK, U.S.A.) 209
Marine birds and ice-influenced environments of polar oceans
G.L. Hunt Jr. (Irvine, CA, U.S.A.) 233
Tracers of near-surface, halocline and deep waters in the Arctic Ocean: Implications for circulation
E.P. Jones (Dartmouth, N.S., Canada), L.G. Anderson (Göteborg, Sweden) and D.W.R. Wallace (Upton, NY, U.S.A.) . . . 241

Ecology of bottom ice algae: I. Environmental controls and variability
G.F. Cota (Knoxville, Tenn., U.S.A.), L. Legendre, M. Gosselin (Quebec, Que., Canada) and R.G. Ingram (Montreal, Que., Canada) 257
Ecology of bottom ice algae: II. Dynamics, distributions and productivity
G.F. Cota (Knoxville, Tenn., U.S.A.) and R.E.H. Smith (Waterloo, Ont., Canada) 279
Ecology of bottom ice algae: III. Comparative physiology
G.F. Cota (Knoxville, Tenn., U.S.A.) and R.E.H. Smith (Waterloo, Ont., Canada) 297
An overview of the abundance and role of protozooplankton in Antarctic waters
D.L. Garrison (Santa Cruz, Calif., U.S.A.) 317
Modelling ice-edge phytoplankton bloom in the Scotia–Weddel sea sector of the Southern Ocean during spring
C. Lancelot (Brussels, Belgium), C. Veth (Den Burg, The Netherlands) and S. Mathot (Brussels, Belgium) 333
Crystallographic structure of sea ice along a salinity gradient and environmental control of microalgae in the brine cells
L. Legendre (Quebec, Que., Canada), M. Aota, K. Shirasawa (Mombetsu, Japan), M.-J. Martineau (Quebec, Que., Canada) and M. Ishikawa (Mombetsu, Japan) 347
Nutrient cycling and primary production in the marine systems of the Arctic and Antarctic
L.A. Codispoti, G.E. Friederich, C.M. Sakamoto (Pacific Grove, Calif., U.S.A.) and L.I. Gordon (Corvallis, Oreg., U.S.A.) 359

Nutrients and organic nitrogenous compounds in the marginal ice zone of the Fram Strait
G. Kattner and H. Becker (Bremerhaven, Germany) 385
Satellite remote sensing of the Polar Oceans
J.C. Comiso (Greenbelt, Md., U.S.A.) 395
Convection and deep water formation in the Arctic Ocean–Greenland Sea System
B. Rudels and D. Quadfasel (Hamburg, Germany) 435
The evolution of the upper water layer in the marginal ice zone, austral spring 1988, Scotia–Weddell Sea
C. Veth (Den Burg, The Netherlands) 451
A simple ice–ocean coupled model for ice drift in marginal ice zones
C.L. Tang and D.B. Fissel (Dartmouth, N.S., Canada) 465
Plankton distribution and the impact of copepod grazing on primary production in Fram Strait, Greenland Sea
H.J. Hirche (Bremerhaven, Germany), M.E.M. Baumann (Aachen, Germany), G. Kattner (Bremerhaven, Germany) and R. Gradinger (Bremerhaven, Germany) 477
The influence of oceanographic processes on pelagic–benthic coupling in polar regions: A benthic perspective
J.M. Grebmeier (Knoxville, Tenn., U.S.A.) and J.P. Barry (La Jolla, Calif., U.S.A.) 495
